CHEWBACCA'S STRUGGLE

TASK

Chewbacca has been quite lonely since his old' pal, Han, passed.

Since Chewbacca is now a lone ranger, he wants to find a friend. His perfect friend contains the following traits:

- friendly
- knows how to fly
- can play Dejarik at a master level
- isn't afraid of the Galactic Empire

BUILD SPECIFICATIONS

1. Construct objects by prompting users for the following information: name, flying skill, Dejarik skill, and how afraid of the Galactic Empire they are.
   - Aside from the name, all other answers will be a number between 1-10.
2. Each object will be inserted into an array to keep track of all of the potential friends.
3. Figure out a ranking system for who is the best match for Chewbacca based on their stats.
4. Output the best and worst candidates for Chewbacca's new friend.
